

Double Sided PCB Board

Prototype Panel Universal Circuit Glass

Double-Side Prototype Board

Dimension: 80 x 120mm 3.2 x 4.8

Grid : 0.1 (2.54mm)

Hole diameter : 0.9mm

Hole (column x row): 30 x 42

Thickness : 1.6mm

Material : FR-4 (glass fiber)

All holes are plated through

Both sides are identical
